

ABOUT US

Similia Homoeo Laboratory was established in 1986 in a moderate way and its steady progress was due to mainly the Quality of medicines, we maintained with utmost care and wholehearted co-operation from Homoeopathic Doctors and Dealers.

Ours is the first homoeopathic Factory in Kerala under private sector for manufacture of Mother Tinctures, Dilutions, Biochemic, Blank Tabs etc...

Similia Homoeo Laboratory is the First Homoeopathic manufacturing unit in South India having ISO 9001-2008 and G.M.P(Good Manufacturing Practice) certificate.

Our Quality Control Laboratory is well equipped with all latest Analytical equipments. Well experienced Pharmaceutical Chemists are in charge of the Laboratory for Analysis of Herbs, Raw materials and finished goods etc.

We express our gratitude to our patrons for their whole hearted co- operation given to us since the inception of our factory in 1986.

DILUTION

Similia offers Dilutions in various Potencies (3,6,30,200,1M, 10M, 50M (LM) & CM). Most of the Back Potencies are prepared in-house in an automatic potentiiser to maintain accuracy, using ENA (Extra Neutral Alcohol), free from all impurities and odour. Some of the back potencies used are from well known and reliable manufactures.

- Manufactured in fully AIR CONDITIONED area.
- Manufactured and filled in a sterile area in a LAMINAR AIR FLOW STATION, which ensures optimum hygiene and purity.
- Dilutions are filtered through MILLIPORE MICRON FILTERS of 0.2 Microns ensuring no impurities and contaminations.

MOTHER TINCTURES

Similia's Mother Tinctures offer maximum concentration of active substances. The standard of quality maintained at every stage of processing right from the procurement of herbs up to the final packing as per the standards mentioned in SOP (Standard Operating Procedure).

- Manufactured and stored in fully Air Conditioned Area
The crude drugs used are of the best quality and are obtained from highly reputed Indian and Foreign sources.
- Mother Tinctures are manufactured in ENA (Extra Neutral Alcohol) and Demineralized water, free from all impurities and odour.
- Mother Tinctures are manufactured in stainless steel 304 grade (as specified in GMP Standards) Maceration vessels and Percolators.
- High power Hydraulic Press used for extracting the maximum drug content.
- Filtration is done through very fine and sophisticated sparkler filters and Millipore Micron Filters.
- Infrared Moisture Analyzer is used to ascertain moisture content of herbs.
- Various analytical tests are done in a fully equipped Quality Control Laboratory by a team of highly qualified chemists.
